Statement of Philosophy

Dedicated to helping individuals achieve mental balance, serenity of heart, emotional equilibrium and spiritual awareness, I offer individual and group counseling, spiritual direction, workshops, retreats, seminars and Nia Technique toward these goals. Integrating powerful and complementary healing techniques, these offerings provide real life tools for living happy and productive lives.

Offerings

- * Individual Counseling/Psychotherapy: I assist clients through grief, trauma, abuse, sexual, physical and verbal abuse, depression, anxiety and stress-related somatic conditions utilizing a blend of traditional and alternative therapeutic techniques. Deep relaxation audio CD's are available to enhance and reinforce this work.*
- * EMDR: Eye Movement Desensitization and Reprocessing, also known as Neuro-affective therapy. As a Certified EMDR Therapist, I offer this highly effective approach to therapy, involving mind, body and spirit to relieve the symptoms of PTSD, trauma, depression, anxiety, abuse and grief. The EMDR protocol is powerfully beneficial in enhancing executive performance abilities for business leaders, athletes and artists who are motivated to reach goals beyond their present competency.

- * Spiritual Direction: Certified through the Order of St. Benedict, I assist clients with their individual spiritual journeys, drawing from the esoteric teachings of all faith traditions, using the client's own experience, dreams and life patterns as guides.*
- * Group Counseling and Facilitation: I assist groups either through facilitation or education to develop and thrive through life or work situations such as change, grief, or corporate stress. Specializing in communication and cooperation, I also develop improved relations within small organizations.*
- * Workshops, Seminars and Retreats: I offer day and half-day workshops specifically addressing coping skills to successfully deal with anxiety, depression and work environment stress. I also offer retreats focusing on sacred psychology, mysticism, meditation practice, dream analysis and the Enneagram.*
